

Global reach with a local touch

Unisys Private Label Field Services

The challenge

Your clients need immediate, hands-on tech support to maintain productivity. However, delivering consistent, enterprise-grade field services across diverse geographies can be complex. With fewer providers available to support your brand's needs, you may struggle to find reliable services that can grow with your client's businesses'.

The solution

Deliver seamless global field support under your brand with Unisys Private Label Services. Provide your clients with modern, convenient support options like smart lockers and virtual tech cafés. Benefit from expert on-site technicians who understand regional needs and ensure consistent, high-quality service everywhere your clients operate, all while maintaining your brand's identity.

Meeting your needs

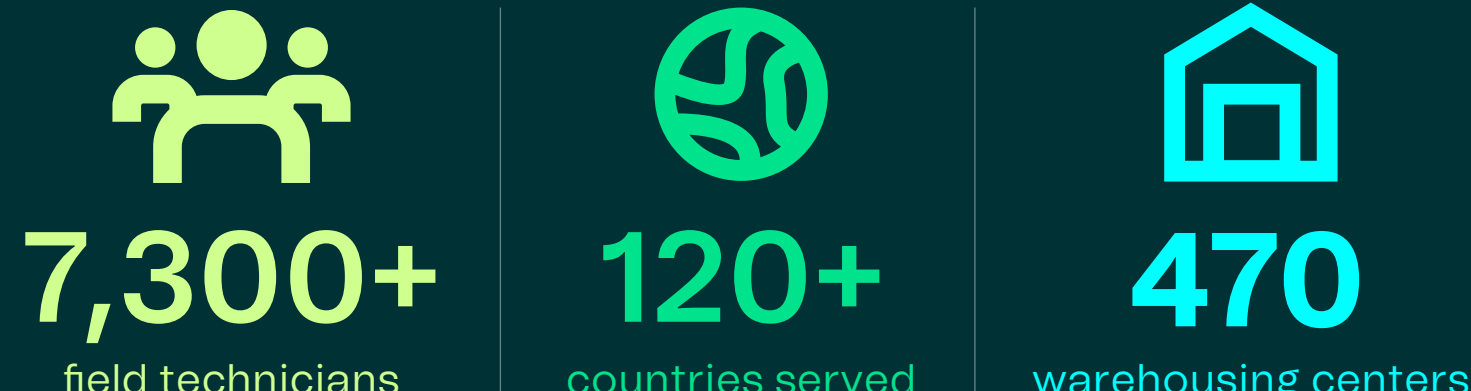

Unisys Private Label Services

Deliver tech support under your brand to on-site, hybrid and remote workers while Unisys manages operations behind the scenes.

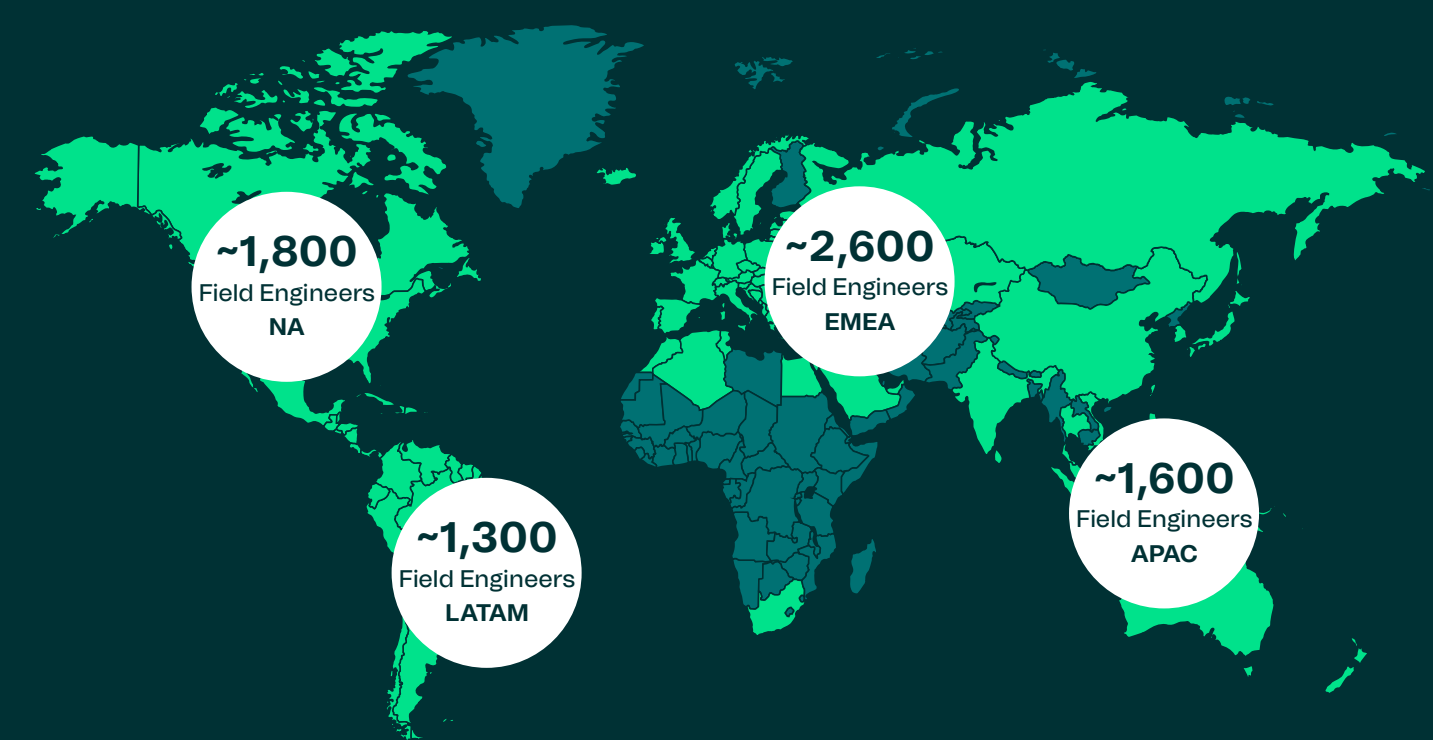

Five industry awards since 2023 for exceptional field services solutions and support.
