

How Unisys aligns with Dell Technologies

Device Subscription Service

End-to-end lifecycle management with flexible financing that keeps devices secure, compliant and sustainable.

Next-Generation Service Desk

AI-driven automation and self-healing support that resolves incidents instantly across any channel.

Hybrid Cloud Managed Services

Centralized, automated management of Dell and hybrid cloud environments for maximum efficiency and uptime

Cyber Recovery

Rapid recovery from cyber attacks with immutable data copies, air-gapped protection and automated threat detection.

Managed Detection and Response

24/7/365 monitoring that detects, responds to and mitigates cybersecurity threats in real time.

ClearPath®

Mission-critical transaction processing with built-in resiliency and scalability on Dell infrastructure.
