ASIA-PAC 43

3 IN 4

Europe cloud users are satisfied with improved security, faster time to market

90%

of organisations in Europe are moving their critical IT to the cloud

78%

of those planning to spend more on cloud in 2020 have already seen organizational benefits

71%

of European businesses say cloud migration is critical but only 26% have made it a core strategy

Cloud transformation is a business issue

71% of leaders believe cloud transformation is a business issue

67% of IT leaders believe that IT organisations will need to transform to succeed

The Unisys Cloud Success Barometer rates how well cloud transformations have met expectations across six dimensions: revenues, costs, agility, competition, security and productivity.
